A Complete Anti-Anxiety Supporting Dietary Supplement

WHAT IS MICROJIVA STRESS?

MicroJiva Stress is an innovative new line of products that provide a more complete anxiolytic support for overall mental health. All MicroJiva products and their components have been verified by doctors and optimized to treat specific physiological ailments.

MicroJiva supplements use professional grade and quality ingredients:
- Full recommended daily dose
- Sourced from nature and allergen free
- Bioavailable formats
- From renewable and sustainable sources
- Developed by doctors

WHAT IS IT COMPRISED OF?

MicroJiva Stress provides natural prebiotic fiber, short-chain fructo-oligosaccharides (scFOS) and probiotics of *Lactobacillus* and *Bifidobacterium* genera with other natural, herbal prebiotic-activating supplements full of health-benefitting phytochemicals, which work together to relieve stress by supporting beneficial bacteria for a symbiotic environment in your gut, intestinal barrier function and gut integrity.

Probiotic Blend:
- *Lactobacillus fermentum PV 5221,*
- *Lactobacillus plantarum PV 8826,*
- *Bifidobacteria longum spp. infantis PV 702255*

Prebiotic Supplement:
- Triphala
- Ashwagandha
- B-complex vitamins
- Sc-FOS

WHAT ARE THE BENEFITS?

- Reduces stress and improves mood
- Maintains healthy gut microbial balance
- Confers anti-inflammatory and anti-oxidative properties

WHY RECOMMEND MICROJIVA STRESS?

The gut-brain axis plays an important role in regulating various neuronal signals including stress-related responses (1,2). The probiotics in MicroJiva Stress have been shown to modulate gut-brain signaling to target the 95% of serotonin production in the gut and support healthy microflora, intestinal barrier function, normal inflammatory response and anti-oxidative properties (1,2,3).

Our patented formulation combines a probiotic blend with adaptogenic, herbal prebiotics (Triphala and Ashwagandha) which demonstrate stress-reducing potential through anti-inflammatory mechanisms and other healing properties (4,5). The prebiotic dietary fiber, scFOS, also supports gut-brain neurotransmission signaling while B-complex vitamins help relieve stress.

HOW IS MICROJIVA STRESS USED?

One capsule/sachet of MicroJiva Stress is taken in the morning and evening with food. The daily dose of MicroJiva Stress provides 10 billon CFU of probiotics with 1,200 mg of short-chain fructo-oligosaccharides and 10 mg of Triphala.

PATENTS AND TRADEMARKS:
